## DEATH FROM THE AIR

HUNDREDS of innocent civilians, including women and children, were slaughtered by Japanese bombs dropped on Canton during the mass air raids of the week-end. Many buildings were destroyed and many others were badly damaged, among them being the Kwangtung Construction Administration Building, shown above.

## NEW MASS EXECUTIONS OF SOVIET OFFICIALS

Moscow, May 30. New mass executions are reported from the Ukrainian capital of Kiev. According to reliable information, as many as 217 death sentences on Soviet officials have been carried out during the last few days.

Some details of the backgrounds of these new condemnations were revealed by the Secretary of the Communist Party organisation of Kiev, M. Krjukov at a party conference.

He indicated that the executions were connected with the discovery of three allegedly counter-revolutionary organisations in which Soviet officials at Kiev were involved. (Transocean).

## NEW RAILWAY IN CHINA

### Connects Nanning With Indo-China

Paris, May 30. A group of French banks headed by the Banque Indo-Chinoise has agreed to provide financial backing for the construction of a railway from French Indo-China to Nanning, in Kwangsi Province, as an extension of the existing line from the interior to the Indo-China frontier. (Reuter).

A Reuter dispatch from Paris states that messages from Tokyo and Shanghai confirm the report of the new railway, which is expected to be completed in six months.

## CANTON BOMBING HORRORS INFLAME WORLD OPINION

TWISTED AND TORN

### Appeals For Firm International Action To End Indiscriminate Japanese Killing Of Civilians

London, May 30. The Japanese bombings of Canton with the killing of hundreds of civilians, is given great prominence in all newspapers today.

The League of Nations Union is holding a conference today on the matter. Political circles expect that the bombings will be brought strongly to the attention of Parliament.

The Manchester Guardian emphasises that the raiders made no effort to find military objectives but dropped the bombs in the crowded living quarters of the city and made their purpose plain by machine-gunning the rescuers.

### Ghastly And Pathetic Canton Scenes

Canton, May 30.

Sights so ghastly that they beggar description were witnessed by Reuter's correspondent who made a tour of the bombed areas here this afternoon.

A young woman and an old man were the only survivors at a group of a dozen small, poor huts.

The young woman sat sobbing on a tree trunk, looking down at the little blasted body of her only child, whose tiny chest had been blown away.

(Continued on Page 9)

There was a time when such outrages would have awakened the world to instant protest but war, which tends always to brutalise combatants, now appears to have dulled onlookers' conscience with its repeated horrors, says the paper.

Japan, who in full pride of the first successes took little notice of the protesting world, is no longer so self-confident of final victory. The receded Japanese armies face a vast hostile continent with a constant menace from the north.

International opinion, say the paper, if expressed with sufficient resolution, might stay Japan's continued assaults on civilian life. (Reuter).

### APPEALS SENT

Canton, May 30.

A dozen messages of appeal for protests against the Japanese raids on unarmed civilians were telegraphed today by local medical and semi-official organisations to the whole world.

Several British missionaries wired to the Archbishop of Canterbury, Dr. Cosmo Lang, appealing to him to bring to the attention of the public the bombing of civilians and to do what he can to secure the British Government to protest against such inhuman barbarity.

The American Residents' Association has similarly wired to Mr. Cordell Hull, while appeals were also sent privately to members of the House of Representatives.

A typical one, "Terrible suffering is caused by the indiscriminate bombings. For God's sake, can you help?" has been sent to Representative R. G. Allen.

The Medical Associations of Britain, Canada and America have been cabled to by the Canton Association as follows: "The Japanese Air Force is repeatedly and severely bombing Canton city. The hospitals are full of wounded non-combatants. Many are dead. We urge strenuous protests from the American and British Governments." (Reuter).

### General Wu Urges People To Be Calm

Canton, May 30.

Speaking at the weekly memorial meeting this morning, Governor Wu Te-shen declared that it was clearly the objective of the Canton Japanese air raids over the week-end to terrorise the Cantonese people and disturb peace and order in the city.

The entire populace of Canton, General Wu said, instead of being cowed into abject despair, should keep calm and collectively shoulder the responsibility of defending their native city.

Close co-operation must be maintained, he advised, between the civilian populace and the various rescue parties in order to minimise the number of casualties.

By refusing to be terrorised and by lending their support to the authorities, the Cantonese people will do a great service in adding to the national strength against aggression, General Wu stated. (Central News).

### Arab Plan For Palestine

#### REJECTED BY ROYAL COMMISSION

London, May 30.

Some of the main points of the Arab plan for solving the Palestine partition question were today disclosed in the Arab newspaper, Falastin.

The plan, which was recently submitted to the British Palestine Commission, proposes the creation of a "United States of Palestine and Trans-Jordan," in which Jews shall be granted autonomous rights within those territories in which they are already living.

It is suggested that the territories to be placed under Jewish control should be regulated by a commission composed of Jews, Arabs and British members. This scheme should be tried out for a period of ten years.

The newspaper says that the plan has been rejected by the Commission on the grounds that it lies beyond the scope of a possible solution. (Transocean).

MAIN OBJECT of attack by the Japanese air raiders, who mercilessly bombed Canton during the week-end, was the Wong Sha railway station. Some conception of the terrific damage wrought can be gained from this picture of one of the platforms showing the twisted pillars and the bare frames which once supported the roof.

## STEPS TAKEN TO GUARD AGAINST CHOLERA HERE

### GOVERNMENT IMPOSES BAN ON ICE CREAM, CUT FRUIT AND OTHER COMMODITIES

Quarantine restrictions have been imposed against arrivals from Swatow on account of cholera.

A Government Gazette Extraordinary issued late yesterday gives notice of the following emergency regulations which have been promulgated by His Excellency the Governor in Council for the prevention of the disease in the Colony:—

## EXCLUSIVE PICTURES OF CANTON AIR RAIDS

TAKEN BY THE DAILY PRESS photographer in Canton, these exclusive pictures show all too vividly the damage wrought by the Japanese raiders during their mass attacks on the Kwangtung capital during the week-end. The pictures (from left) show: Gallant rescue workers, who

tolled incessantly, regardless of danger, to extricate victims of the raiders from under tangled masses of bricks and beams. Three women, including one European, can be seen here helping in the work of mercy. A party of youthful first-aid workers, undaunted by the scenes of carnage which met their eyes, waiting to assist the wounded. Grim reminder of the terror that dropped from the skies, this gaping crater marked the spot

where a bomb exploded outside the Kwong Sa Middle School. One missile tore the entire corner off the school, leaving floors hanging in mid-air.

Assisted by Boy Scouts, a number of whom lost their lives, Red Cross workers delayed amid ruins for dead and injured. The Japanese raiders did not respect the Red Cross flag.

## SZECHUEN INDUSTRIAL PROGRESS CONTINUES

### Sugar Producing Districts To Be Aided By Government

#### FIVE-YEAR PLAN IN CIVIC IMPROVEMENTS AT CHENG TU AND CHUNGKING

(FROM OUR OWN CORRESPONDENT)

Chengtu, May 27.

Destruction of life and property in north and east China will not impede the progress of other sections of the Chinese Republic, if the Ministry of Economics of the National Government could have its own way to render assistance wherever its influence may extend.

The modern sugar mills in Weichow, Kwangtung, now not in full operation, are to be transferred to Neikiang, Szechuen, where the machinery may do more good. Neikiang, Tzechung, and other Szechuen sugar producing districts are to be assisted by both the central and the local government. In addition to experimental stations there for the introduction of better seedlings and the study of sugar chemistry, the Szechuen authorities are now promoting a large corporation, which a capital of \$3,000,000, to further develop the sugar industry, to bring it out of the ancient stage.

Szechuen sugar, once enjoying a trade of millions on the upper Yangtze alone, is now being affected by foreign competition; but it still commands a favourable stand in local consumption, still bringing a tax return to the government of some \$240,000 annually for the single district of Neikiang alone.

The Government of Szechuen itself intends to help financing the sugar industry, aside from trying to enlist the support of overseas Chinese, a leading figure of whom from Java having already signified his intention to participate.

#### SILK INDUSTRIES

Another Szechuen industry to be pushed is the silk. Since early 1938 the Szechuen Silk Syndicate, in which the Szechuen Government is interested, has been distributing some 320,000 sheets of improved eggs to the farmers and it is now gathering cocoons from these selected specimens at a rate of 45 cents a catty. The Silk Syndicate has also opened a testing station at Chungking to pass all silk before it is being certified for export in order to maintain a standard approved of by foreign and outport importers.

By the end of May, some 220,000 troops from Szechuen will be well on their way to the north and east sectors of the Chinese war front; and 16 steam transports are now waiting at Chungking to convey part of the men down the Yangtze River. Only recently scores of wooden junks have left Szechuen ports for somewhere down the River.

Szechuen came under new civil and military administrators early May, when General Tang Hsi-hou assumed the office of pacification commissioner for Szechuen and Sikang; and General Wang Tsen-hsu, took over charge of Szechuen provincial government, both succeeding General Liu Hsiang, head of both the civil and military affairs in this vast west China province until last January, when he died after a short sickness in Hankow, while in command of Szechuen troops on the front.

#### THE LATE GENERAL LIU

The remains of the late General Liu, which have been lying in semi-state at the capital of Szechuen at Chengtu since late February, was transferred on May 27 to the Temple of Marquis Chu Ke-liang, where it will be kept until a site is selected for his final interment. Mrs. Liu is advertising for a geographer of the old school, Feng Shu expert, to advise her in this matter.

Since the inauguration of the new administrations, several civil reforms have been introduced into Szechuen, including the appointment of an unofficial, or non-political board of auditors among the local citizens to verify the accounts and submit a financial statement before the retiring provincial treasurer may be freed from his responsibility.

#### MUNICIPAL EXPERTS

Both Chengtu, the capital, and Chungking, the trade port, of Szechuen, have now a board of municipal experts to report for a five-year plan, in civic improvements. In Chengtu, the immediate need is a up-to-date water-works plant, while in Chungking, a subway from the heart of the city to the "water-front" will be closely studied.

More than ten well-known Chinese universities or colleges have been removed from the war zones to Chengtu since the Sino-Japanese conflict. A score of large factories from the lower Yangtze is now resuming operations in Chungking, Pehpei, and towns between these two places.

Residents in Chengtu, Chungking, and other parts of west China are looking forward with no

### Japanese Poor In Arithmetic

The Japanese are about the world's poorest students in arithmetic for illustration purposes, their almost daily bombings of the Canton-Hankow Railway may be mentioned.

Between September, 1937 and the end of February, 1938 this 1096 kilometre long line was subjected to no less than 171 attacks by Japanese airplanes. Among all the Chinese railways, the Canton-Hankow Line unquestionably has the unsought distinction of having been bombed the greatest number of times.

It has been calculated that in their 171 raids over the Canton-Hankow Railway, the Japanese airplanes dropped altogether 1,994 bombs. During the period of six months under review, the line was attacked on an average of once a day every two kilometers of its entire length received their quota of two missiles. Despite these attacks, the trains have been moving back and forth between Canton and Hankow without serious interruptions.

#### PRECAUTIONARY MEASURES

Meanwhile, due to the excellent precautionary measures adopted by railway authorities, only twice were the passenger and freight trains actually bombed. So far material damages have been generally confined to tracks, locomotives and railway bridges.

During the same period, 17 railway employees lost their lives because of enemy aerial bombings and 25 others were wounded. It took an average of 85 bombs to kill one man and 58 others to wound another. If the value of each bomb is 1.211 yen, it cost Japan 102,850 yen to kill one Chinese and 70,188 yen to wound another.

For the last four months of 1937, the average monthly toll of human lives claimed by Japanese bombers on the Canton-Hankow Railway stood at nine. By February and March this year, however, thanks to greater caution by the railway officials, the figure has been reduced to three a month.

Meanwhile, no matter how severely and how frequently the Japanese planes raid the railway, no sooner have the tracks been damaged than they are repaired.

In making the bombing of the Canton-Hankow Railway a daily affair, the Japanese military High Command apparently hope to render the line useless. What a tribute it is to the railway officials that today, ten months after the outbreak of hostilities, trains are running normally between two points.—(China Information Committee).

### WAR TROPHY RAFFLE IN HANKOW

Hankow, May 30.

Two Japanese overcoats captured in battle in Shansi last winter were recently raffled off at the local Chinese Y.M.C.A. before a big crowd, including many foreigners.

The profit of \$983 has been handed over to the Northwestern Partisan Relief Committee for medical work in the Northwest.

One of the two coats was a soldier's overcoat with hood and the other was an officer's overcoat without hood.—(Central News).

### JUDGES DENY WOMEN ARE ILLOGICAL

#### Counsel's "Heresy"

Three Lord Justices objected in the Court of Appeal recently when Mr. Gilbert Eeyfus, K.C., remarked that logic was not a strong point with women.

Lord Justice Greer: I do not agree with that as a general rule. Lord Justice Clouston: That will not do at all. It is a heresy.

Lord Justice Slesser: If you look at university examination results, you will find that women take very high degrees in logic.

Mr. Eeyfus: I will withdraw the remark. Later in the case, an appeal against £550 damages awarded in a King's Bench action to a woman for the loss of jewellery stolen from a room in the Bull Hotel, Gerrards Cross, Bucks, Lord Justice Clouston said:

"I have difficulty in understanding the frame of mind of a lady going to stay at this little hotel for three or four weeks. What astonishes me is that she should take about £700 worth of jewellery there. She was not going to appear at public assemblies where she would be decked out in all her jewels. But, having taken the jewellery there, I should have thought she would have taken very special precautions."

#### LATITUDE ALLOWED

Mr. Eeyfus: She had no other home at the time.

Lord Justice Clouston: Ladies, of course, must be allowed some latitude, but I cannot imagine friends of mine normally taking £600 worth of jewellery to a country inn. They would deposit it in a bank. Of course, I can think of certain hostels where, I imagine, ladies with that amount of jewellery would wear a good deal of it.

The Court held that Mrs. Frances Ada Shacklock, of Windsor-road, Gerrards Cross, was negligent in not leaving her jewellery in the hotel office, and allowed the appeal of Eshorpe Ltd., proprietors of the hotel.

Mrs. Shacklock was refused leave to appeal to the House of Lords. It was stated by Mr. Eeyfus, on behalf of Mrs. Shacklock, that she kept the jewellery locked in a jewel case in a locked dressing-case in her room.

### AUTOGRAPH OF KING WITHDRAWN FROM MUSEUM

The Coronation Roll of King George VI. has recently been withdrawn from the collection of Royal autographs which has been on view in the museum attached to the Public Records Office.

A curious chain of circumstances led to the decision to withdraw King George's signature.

Some time ago the museum prepared a postcard reproducing the autographs of the six Georges. It was their intention to place a number of these postcards on sale as souvenirs.

A proof of the proposed postcard was sent to Buckingham Palace for approval. Court officials at once protested against its publication on the grounds that the signature of King George VI was a very poor specimen of the King's handwriting.

Thereupon the Museum pointed out that it was taken from the Coronation Roll, which was also on view; and that, whereas they could not expect to sell more than a few hundred postcards, many thousands of people would see the original in the course of the year.

At the request of the Palace officials the Museum agreed to withdraw the Coronation Roll and also to suppress the proposed photograph.

The frog will not be worn with the Sam Browne belt by officers and warrant officers, class I, except on occasions when the sword is required to be worn. Puttees will continue to be worn on ceremonial parades and for walking out purposes by other ranks, pending the introduction of a new pattern of trousers.

Officers and other ranks will wear spurs for training only when actually required to be mounted, but spurs will be worn, by those entitled to wear spurs, for ceremonial, with mess dress, undress, and walking out dress when breeches or overalls are worn. This will also apply to Territorial Army units which were entitled to wear spurs before their conversion to another role.

FOOT ITCH  
Athlete's Foot

According to the Government Health Bulletin No. 288, at least 80% of the adult population of the United States are being attacked by the disease known as Athlete's Foot.

Usually the disease starts between the toes. Little watery blisters form, and the skin cracks and peels. After a while, the itching becomes intense, and you feel as though you would like to scratch off all the skin.

## BEWARE OF IT SPREADING

Often the disease travels all over the bottom of the feet. The soles of your feet become red and swollen. The skin also cracks and peels, and the itching becomes worse and worse.

Get rid of this disease as quickly as possible, because it is very contagious and it may go to your hands or even to the under arm or crotch of the legs.

Most people who have Athlete's Foot have tried all kinds of remedies to cure it without success. Ordinary germicides, antiseptics, salve or ointments seldom do any good.

## HERE'S HOW TO TREAT IT

The germ that causes the disease is known as Tinea Trichophyton. It buries itself deep in the tissues of the skin and is very hard to kill. A test made shows it takes 15 minutes of boiling to kill the germ; so you can see why ordinary remedies are unsuccessful.

H. F. was developed solely for the purpose of treating Athlete's Foot. It is a liquid that penetrates and dries quickly. You just paint the affected parts. It peels off the tissue of the skin where the germ breeds.

## ITCHING STOPS IMMEDIATELY

As soon as you apply H. F. you will find that the itching is immediately relieved. You should paint the infected parts with H. F. night and morning until your feet are well. Usually this takes from three to ten days, although in severe cases it may take longer or in mild cases less time.

H. F. will leave the skin soft and smooth. You will marvel at the quick way it brings you relief, especially if you are one of those who have tried for years to get rid of Athlete's Foot without success.

## THE DUCHESS OF KENT AND BATH

The Duchess of Kent will visit Bath on October 18 and 19 to attend a ball and the opening of the historic Assembly Rooms which are being renovated at a cost of £25,000.

The Duchess will stay at Long-leat, the seat of the Marquess of Bath, and on October 19 will attend the opening of the Assembly Rooms. It is hoped to arrange for her to receive presents on behalf of the Royal National Hospital for Rheumatic Diseases, of which she is President. She will afterwards visit the hospital, and make a tour of the city.

## ST. LAZARUS DAY IN MACAO

(From Our Own Correspondent)

Macao, May 29. Hundreds of the faithful took part in a religious procession through the principal streets of the St. Lazarus parish district this afternoon to commemorate the feast day of its patron saint.

The procession began from St. Lazarus Church, which is one of the oldest churches in Macao and generally supposed to have been erected in 1573, and drew large numbers of foreign and Chinese residents.

Band music was provided by the band of the Salvation Institute.

## ANNAPOLIS SALUTE

The romance and responsibility of a midshipman's life at the U. S. Naval Academy make the keynote of "Annapolis Salute," RKO Radio's new action offering with James Ellison and Marsha Hunt in the romantic leads and Harry Carey and Van Heflin sharing dramatic honours.

A rivalry between two midshipmen from vastly different stations in life forms the basic theme of the picture, into which much of the colour of the Academy and its traditions has been skillfully woven. Ellison is the son of a veteran chief petty officer, Harry Carey, who was never able to attend the institution himself but who has sacrificed everything to enable his boy to become an officer and a gentleman. With most of the scenes actually filmed at the Academy itself, the production attains a notable realism. This has been enhanced by the fact that Director Christy Cabanne, author of the story, is himself a former Annapolis midshipman and has captured much of the institution's spirit in the film.

The cast includes Arthur Lake, Dick Hogan, Ann Hovey and Marilyn Vernon. "Annapolis Salute" has its run at the Alhambra Theatre today.

## HOSPITAL DRAMA

Within fifty feet of each other, tragedy and gaiety were enacted on the set of Metro-Goldwyn-Mayer's "Between Two Women" which opens at the Majestic Theatre for a 2 day showing.

"Between Two Women" is based on an original story by Erich von Stroheim and was inspired by a tragic real life story. Adapted to the screen by Frederick Stephani and Marion Parsonnet, the picture was directed by George Seitz. In addition to Tone, Miss Bruce, Miss O'Sullivan and Cliff Edwards, it features Leonard Penn, Janet Beecher, Charley Grapewin, Janet Troy, Grace Ford, June Clayworth, Edward Norris, Anthony Nace and Hugh Marlowe.

## SONJA HENIE EARNs MORE

### THAN ROOSEVELT

Sonja Henie, ice skating movie star, was paid \$42,145 16c. by Twentieth Century Film Corporation for her film work in 1937, according to a report on income filed at Government Offices in Washington.

This would be about three years' earnings for President Roosevelt (\$15,000 a year).

William S. Kunkson, President of General Motors, had only a beggarly \$28,776 for his year's work, but Owen D. Young, chairman of General Electric, collected \$47,000.

One of the highest paid men in England is Lord McGowan, head of Imperial Chemical Industries, who gets between \$55,000 and \$60,000.

## A CITY BYWAY

### Where Pepys Watched Great Fire

Laurence Pountney Lane recalls in its name an early chapter of City history, "Pountney" being a corruption of the name of Sir John Pountney, Lord Mayor in the reign of Edward III and a man of great wealth and influence.

The church of St. Laurence Pountney was destroyed in the Great Fire, and was not rebuilt. Pepys saw flames burst suddenly from the steeple and records that "the wind was mighty high, driving the fire into the City."

In the sixteenth century the lane was a centre of London's night life, and the poet Henry Howard, Earl of Surrey, was one of the young men of fashion whose wild diversions brought the place a certain notoriety.

Records of the Privy Council include depositions by a Mistress Arundel, who kept a house of entertainment in Laurence Pountney Lane, that Surrey and his friends ate meat in Lent and committed other improprieties, including the breaking of sober citizens' windows at midnight.

The railing of the old burying-ground is shown on the left of the drawing. Adjoining it stood, within living memory a blacksmith's forge where the ring of the anvil could be heard from 7 a.m. to 5 p.m.

Two generations ago water from Dowgate Dock invaded the lane, at the spot Mr. Fletcher stood to make his drawing.

## CORK HARBOUR DEFENCES

London, May 30. As a result of meetings between officials of Eire and the United Kingdom on Saturday, arrangements were agreed upon for the formal transfer of the defences of Cork Harbour on July 11. The date of transfer of the harbour defences of Beraraven and Loughsawilly will be fixed later. (Reuter).

## DISTURBED INTERNATIONAL CONDITIONS

POPE PIUS XI

## Pope Prays For Peace

## ADDRESS TO EUCHARISTIC CONGRESS

Castel Gandolfo, May 30.  
Reference to the disturbed international conditions was made by His Holiness Pope Pius XI in an address in Latin to the International Eucharistic Congress in Budapest, from the Vatican Radio Station.

His Holiness said, "May our Redeemer, in His divine mercy, calm the anxiety which perturbs the hearts of men, and with rays of supernatural light, dispel the lowering clouds which seem to threaten new tempests."

In conclusion, Pope Pius imparted the Apostolic Benediction. —(Reuter).

## ADDRESS ABANDONED

Budapest, May 30.  
A thunderstorm, with torrents of rain, led to the abandonment of the address by Cardinal Pacelli on the closing day of the Eucharistic Congress.

A cloudburst occurred while the closing procession, several miles long, was progressing from Basilica, St. Stephen, to the Heroes' Square.

Despite the storm, Cardinal Pacelli sat in his Throne of Ceremony and began his address, but eventually when the pilgrims attempted to gain shelter, Cardinal Pacelli decided to issue his speech through the press.

Earlier in the day, 500,000 pilgrims had assembled in the Square for the Pontifical Mass of the Papal Cardinal Legate, one of the greatest events of the Congress.

Thousands took up positions in the Square on the previous night and others flocked to the Square in scores of thousands before a.m. The crowd took hours to disperse. —(Reuter).

## BOMBING OF OPEN TOWNS

## Spanish Government's Note To Britain And France

London, May 30.  
The Spanish Government has sent Notes to the British and French Governments, asking if they intend to adopt appropriate measures to stop the bombing of open towns. —(Reuter).

## ALICANTE DEATHS

Barcelona, May 30.  
The city was the victim of eight air raids in twelve hours. Damage caused was slight owing to the improved defences.

The death-roll in the Nationalist air raid on Alicante on Wednesday has risen to 378 with the finding of 27 more bodies and the deaths of 53 of the wounded.

A hundred others are in a grave condition. —(Reuter).

## ITALIAN "SOLIDARITY"

Burgos, May 30.  
The Nationalist batteries on all fronts fired a volley of twenty-one rounds at 11 a.m. yesterday in honour of the Italian "solidarity with Nationalist Spain."

The Nationalists have captured a pass in the southeast Teruel, commanding two railways and the road to Valencia. —(Reuter).

## ELECTION RESULTS IN CZECHOSLOVAKIA

## SUDETEN GERMAN PARTY'S GAINS

Prague, May 30.  
The voting in the second Sunday Czechoslovakian municipal elections confirmed the success scored by the Sudeten German Party. In the first Sunday elections, according to the results available here late on Sunday afternoon, the Sudeten German Party collected considerably more than 90 per cent of all German votes in a number of larger towns in the Sudeten German regions.

In the town of Friedland, in North Bohemia, the Sudeten German Party obtained 3,489 votes; Social Democrats 98; Communists 260; Czech Group 364.

The Sudeten German Party polled 97 per cent of all German votes.

In Neustadt an der Tafelichte the Sudeten German Party obtained 2,166 votes; Social Democrats 79; Communists 657; Czechs 137, which represents 98.5 per cent of all German votes.

In Maffersdorf, near Reichenberg, the results were:—

Sudeten German Party 3,694 votes; Social Democrats 128; Communists 544; Czechs 129.

In Georgswalde, near Rumburg, the outcome was as follows:—

The Sudeten German Party obtained 4,612 votes; Social Democrats 91; Communists 188; Czechs 179.

At Zwickau, the Sudeten Germans obtained 2,456 votes; Social Democrats 121; Communists 421; Czechs 160.

At Niedergund, near Warmdorf, the Sudeten German Party obtained 1,926 votes; Social Democrats 160; Communists 295; Czechs nil.

At Obergrund, near Warmdorf, the Sudeten German Party obtained 1,137 votes; Social Democrats 103; Communists 141; Czechs nil.

At Doerfel near Reichenberg the Sudeten Germans obtained 1,818 votes; Social Democrats 106; Communists 306; Czechs 285.

Compared with 1935, the elections in the Sudeten German parties gained in the Reichenberg district, represent an increase from 20 to 65 per cent, while the Social Democrats and Communists lost a large number of votes.

## CORRESPONDENTS UNDER FIRE

Hankow, May 30.  
Operations attending the Chinese withdrawal from Hanchow nearly cost two correspondents of the Russian Tass News Agency their lives. They were with General Li Chung-jen's headquarters staff at the time of the evacuation and they described their experiences when they arrived yesterday. For some time they had been given up for dead.

They were continually under the menace of Japanese bombs, they said, for four days. During this time Japanese aircraft frequently dived on their company and machine-gunned them.

On one occasion a small bomb landed within a few yards of one of them, who had flung himself flat on the ground and escaped death or injury by a matter of inches. —(Reuter).

CARDINAL PACELLI

## TENSE SITUATION AT KWEITEH

Chengchow, May 30.  
Strong Chinese detachments are being rushed south of the Lung-hai Railway to reinforce the defence of Kweitch, where the situation is described by military reports as extremely tense following an all day bombardment by Japanese forces from the direction of Mamutai.

The situation at Kweitch took a sudden grave turn yesterday as the Japanese advance, checked in the vicinity of Kalfeng and Lanfeng, recoiled from its spearhead and turned once more its mechanised jaws to points on the eastern section of the railway.

Throughout yesterday, Japanese artillery batteries hurled over a thousand shells on the walled city of Kweitch, where the Chinese defence staged brilliant tactics to repulse numerous Japanese charges.

At the same time, several hundred Japanese troops who penetrated into Linlinsi about fifteen kilometres southeast of Kweitch launched a northward thrust but were driven back by Chinese forces.

At Tungksang, about ten kilometres west of Lanfeng, a strong unit of 1,000 Japanese made a fresh attempt on Lanfeng on the night of May 28 but were routed after a fierce battle which lasted till early yesterday morning.

It is claimed that during the engagement, more than 400 Japanese were killed and large quantities of military equipments, including five armoured cars, nineteen light machine-guns and 200 rifles, seized. —(Central News).

## SECOND PHASE OF CZECH ELECTIONS

## GERMAN FACTIONS IN CLASH

Prague, May 29.  
The second phase of the Czechoslovakian elections is being held in 2,700 districts during the week-end. Cold and wet weather is prevailing throughout the country, and so far there have been no incidents between Germans and Czechs.

A number of Sudetens and three German Socialists were seriously injured in a disturbance this morning between these two factions in the village of Richenberg, in north-west Czechoslovakia.

Order was restored by the Czech authorities after seventy-five persons had been detained. The German prefect of the district is enquiring into the affair. —(Reuter).

## LONDON RELIEVED

London, May 29.  
The quiet with which the second phase of the Czechoslovakian elections passed off was received with relief in London as a further proof of an easing, at least on the surface, of the tension in Europe.

It is believed that the quietness of the elections should facilitate the negotiations between the Czech Premier, Dr. Milan Hodza, and the Sudeten German leader, Herr Konrad Henlein. —(Reuter).

## REPORT DENIED

Prague, May 29.  
It is officially denied that there have been any movements of Czech troops, either in advance or withdrawal, on any part of the frontier. —(Reuter).

## VOTES FOR HENLEIN

Prague, May 29.  
Preliminary returns in the municipal election indicate that a large majority of the German votes, estimated at over 80 per cent, have gone to the parties led by Herr Henlein.

The German Social Democrats, the only Czech-Germans opposing Henlein, have suffered heavily in the elections. They share the remainder of the German votes cast with the Communists.

The Czech United Party has been successful everywhere in the elections. —(Reuter).

## ENTIRE JAPANESE DETACHMENT WIPED OUT

Luan, May 30.

During a fierce battle yesterday at Tashushan on the outskirts of Hanoi, an entire Japanese detachment, numbering 2,000 strong, was wiped out.

More than 600 Japanese soldiers, taken captive in the engagement, have been escorted to the rear to be admitted to concentration camps. —(Central News).

## CHINESE GUERRILLAS CUT SUIYUAN HIGHWAY

Sian, May 30.

A military despatch from Tashushan states that a detachment of Chinese guerrillas operating in east Suiyuan have advanced to a point between Kweishui and Tokoku on the north bank of the Yellow River outside the Great Wall, and cut the highway on May 25.

Two surprise raids were staged by the Chinese unit on Tokoku, damaging two Japanese motor trucks and killing a number of Japanese and Mongolian troops.

A large number of documents were also seized. —(Central News).

## ELECTION FIGURES

Prague, May 30.

Besides the figures already given, the results from 71 small municipal districts of Sudeten German region are now to hand. In these districts the Sudeten German Party polled altogether 54,545 votes, Social Democrats 4,224 votes, Communists 3,239 votes, and Czechs 3,910 votes.

The Sudeten German Party thus obtained 82.5 per cent of the total German votes.

According to an official statement the elections were held yesterday in 1,365 municipal districts, of which 821 were Czech or Slovakian, 367 German, 22 Polish, 47 Carpatho-Ruthenian, 8 Hungarian. Originally the elections were to be held in 2,459 municipal districts.

The discrepancy in the numbers is due to the fact that in some districts the elections were postponed and that in 1,052 districts, of which 699 with Czech or Slovakian majorities, 347 with German and six with Carpatho-Ruthenian majorities, the voting was not necessary, as only a single list was submitted or because the various five parties on basis of their parties had agreed on proportional representation of their respective numerical strength. —(Transocean).

## PITIFUL SCENES WITNESSED IN CANTON

Women, Children  
Stranded In  
Streets

### REFUGEES RUSH TO COLONY

During the week-end thousands of refugees have arrived in the Colony from Canton where havoc has been wrought by the invading Japanese bombing planes.

On Sunday night the express train brought over two thousand refugees who had with them their scanty belongings, and early yesterday morning another train brought a further batch of about 900.

One of the refugees, a Chinese business man in Canton told a representative of the Daily Press that many parts of the city are in complete ruin. Hundreds of dead bodies were strewn along some of the streets that had been subjected to heavy bombardment by the Japanese planes. Houses had been shattered by bombs and many bodies were still buried under the debris. Red Cross workers were still busily engaged in digging up the bodies.

### NAKED CHILDREN

Our informant said that pitiful scenes were to be witnessed along the streets and the Bund. Women and children, who were not in a position to leave the town, were stranded in the streets, some of them crying bitterly over their losses. Children, some of them naked, were roaming around the streets, unaware of the possibility of further air raids.

Shameless, is closed to the influx of refugees, who are clamouring in front of the main gates of the Concession.

Information from other refugees revealed that in many places, including Wonsha Station, fires were still raging and, from a distance, smoke could be seen rising from some of the burning areas. Many foreigners are awaiting transportation to Hong Kong. Every train and boat is expected to be filled to capacity with refugees who dare not risk staying in Canton.

### NOTHING DONE YET

The Colonial Secretary, the Hon. Mr. N. L. Smith, in answer to inquiries yesterday, stated that nothing had as yet been done regarding the checking or regulating of the terrific stream of refugees that has been pouring into Hong Kong since the week-end. The matter is being given notice, however, and it is possible that some measures may be devised soon, if thought necessary.

## NEW STEAMER TO MACAO

First Run To  
Portuguese Colony

From Our Own Correspondent

Macao, May 29. Many local residents were at the wharf to greet the steamer, Macao, on her arrival here shortly after noon yesterday. Sister ship of the Kau Tung, the Macao is the second ship to be put on the Hong Kong-Macao run by the newly-formed Tai Sang Steamship Company.

Visitors were shown over the new ship and served with refreshments, many taking the opportunity to congratulate Capt. J. C. McKechnie for his new command. Other officers are Mr. H. Standfield (Chief Engineer), Mr. A. A. Brown (Chief Officer), and Mr. D. Ellis (2nd Engineer).

The Macao made the trip from Hong Kong in just a little over three hours and a quarter. Her sailing times are 9 a.m. from Hong Kong and 5 p.m. from Macao.

### REGISTRY MARRIAGE

Mr. Boris John Verevkin, engineer of the Texaco Installation, Tsun Wan, and Miss Elizabeth Alexandra Voronoff (nee Nikolski) were married at the Registry, Supreme Court, yesterday.

Mr. W. Aneurin Jones, Deputy Registrar of Marriages, officiated and the witnesses were Mr. R. L. Herrmann, Mrs. A. Buckenrough, Mr. I. R. Razon, and Mr. J. Bowler.

### ANNOUNCEMENT

The forthcoming marriage is announced between Mr. Albert Kwan, civil employee of the Chinese Government, and Miss Diana Au, of No. 71 Hill Road.

## PIANO RECITAL BY PROF. HARRY ORE'S PUPILS

Excellent Programme  
Presented

The rendering of "La Campanella," by Rosabel Hsu, "Air de Ballet," by Irene Lam, A.T.C.L., "Eleventh Hungarian Rhapsody," by Clement Leong, L.T.C.L., and "Le Rouet D'Omphale," by Miss Marina Barretto and Professor Harry Ore, assured the success of the pianoforte recital by the pupils of Professor Ore at St. John's Cathedral Hall yesterday evening.

A gathering of parents, friends and guests made up the appreciative audience.

The duets of Miss Barretto, whose skillful renderings have for long endeared her to local music-lovers, and Professor Ore, who has done and is doing much good work in the training of the young, were the cream of the programme.

Miss Josephine Yu also pleased with Liszt's "The Nightingale" and all others also performed well.

### THE PROGRAMME

The programme follows:—  
1.—Piccola Suite for two pianos (Longo), Marina Barretto and Harry Ore.

2.—(a) Serenade (Mozart), and (b) Serenade (Schubert), Fe Grefald.

## WINS LITERARY PRIZE

Shanghai Man's  
Success

M. Jean Fontenoy was recently declared winner, in company with M. Paul Emilie Victor, of the 20,000 prize given by the weekly, "Marianne," for the best novel published during the past year.

M. Fontenoy, former Shanghai newspaperman, received eight votes for his book, "Shanghai Secret." M. Victor tied him, receiving the same number for his book, "Boreal."

"Shanghai Secret" is M. Fontenoy's third book since he gave himself over to literary work. However, he is still connected with several Paris dailies and is a noted translator of Russian works, chiefly Tolstoy's books.

M. Fontenoy is well-known in Shanghai where he resided for several years during the late 'twenties, when he founded "and was the first manager of the 'Journal de Shanghai.' He has also been long connected with the Havas News Agency, being especially interested in the Far Eastern Department. While with Havas, he paid several visits to the Orient and to Shanghai particularly, being seen in the latter city for the last time in 1934.

## FILIPINO CLUB OFFICIALS ELECTED

At the annual general election of The Filipino Club, which took place on Sunday afternoon at their Clubhouse, King's Park, the following were elected to serve for the year 1938-1939:—

President, Mr. R. Lasala (re-elected); Vice-President, Mr. R. Basa; Hon. Secretary, Mr. R. Ildefonso; Hon. Treasurer, Dr. V. N. Alencas.

Members of Committee:—Prof. P. Gonzalez, R. J. Manalac, E. J. Porter, P. Pineda, P. Villa, C. M. Xavier, W. W. Field.

### U.S. MEMORIAL DAY

Yesterday was the American Memorial Day and it was celebrated in customary fashion by Americans, chiefly ladies, in Hong Kong.

At 10.30 a.m. many American ladies gathered at the Cemetery at Happy Valley where, under the direction of Mrs. A. E. Southard, wife of the Consul General for the U.S.A. in Hong Kong, and other ladies of the Consulate, they decorated the graves of American citizens.

The U.S.S. Ashville, the only American ship in harbour, fired a salute at noon.

## KING'S BIRTHDAY PARADE

R.N. Representatives

In connection with the King's Birthday Parade, on Thursday June 9, it is announced that the Royal Navy will be represented by one Seaman Company, one Royal Marine platoon and a detachment of the Hong Kong Naval Volunteer Force.

Most of the fleet will have sailed for Weihaiwei by then, but the following ships will supply officers and ratings:—  
Dorsetshire, Sandwich, Tamar and the 4th Submarine Flotilla, comprising Regulus, Regent, Rover, Orpheus, Proteus and Pandora, to the total of about three hundred.

A rehearsal of the whole parade will be held at the Race Course at 8 a.m., on Tuesday, June 7.

## FAREWELL TO MAJOR GERRARD

Shai Police Chief  
Retiring

A dinner was given last week by the Shanghai Municipal Council in honour of Major F. W. Gerrard, C.I.E., the retiring Commissioner of Police, at the Cathay Hotel, says the N.C.D. News.

Among those present were:—Mr. C. S. Franklin, Chairman of Council; Brig.-Gen. E. B. Macnaghten, C.M.G., Vice-Chairman; Messrs. H. E. Arnold, Yulin Hsi, Singlo Hsu, W. J. Keswick, R. G. MacDonald, F. N. Mathews, G. E. Mitchell, O. Okamoto, W. H. Plant, Yu Ya-ching, S. Fessenden (Secretary-General), T. W. Gubb (Acting Secretary), Major J. T. Ford, O.B.E., (Treasurer and Controller), Major K. M. Bourne, M.C., Dr. J. H. Jordan (Commissioner of Public Health), Col. J. W. Hornby, M.C. (Commandant, S.V.C.) and Mr. C. H. Stableford (Acting Commissioner of Public Works).

Mr. Franklin said as follows:—

"In the early part of 1929 the Council came to the conclusion that the organization and efficiency of the Police Force had not kept pace with the growth of the city and were not satisfactory and therefore it was decided to request the British Government to recommend a man deemed qualified to reorganize the Police Force and bring it to the highest possible level of efficiency."

"In response to the Council's request the Indian Government nominated Major Gerrard as an officer fully qualified to undertake the task."

"In the first instance the services of Major Gerrard were loaned to the Council by the Indian Government for an indefinite period, but these services proved to be so eminently satisfactory that the Council induced the Indian Government to consent to the release of Major Gerrard from the Indian Service to accept a permanent post as Commissioner of the Shanghai Municipal Police."

### DIFFICULT ORGANIZATION

"It would be by no means an easy task to organize a police force of the size of the Shanghai Municipal Police and maintain it on a high plane of discipline and efficiency even if the units composing its personnel includes large bodies of men of different race and nationality, as does the Shanghai Municipal Police, the task becomes infinitely more difficult."

### JAPANESE VICTORY MARCH

"If any demonstration of the efficiency of our Police Organization were needed, what more convincing proof could anyone want than the conspicuous service rendered to the community by Major Gerrard and his Officers and men in the handling of the unparalleled situation created by the Victory March of the Japanese troops on December 3, 1937?"

"In addition to his ability as an organizer and disciplinarian, Major Gerrard possesses the amiable qualities of tact, patience, and courtesy, to say nothing of others, which have won for him a high place in the esteem and regard not only of his colleagues and associates but of all those members of the community who have come within the large circle of his acquaintances and friends."

THE TRUE  
PICTURE

AND SO the new Japanese Cabinet has made its bow! Over 1000 innocent people of Canton have paid with their lives so that the Japanese military dictators might give effect to their boast that the campaign against China is to be prosecuted "more vigorously."

With barbaric savagery and a fierceness that has horrified the world, Japanese airmen have subjected Canton to mass raid after mass raid during the past three days.

Undoubtedly the Japanese are attacking "more vigorously" but that by no means indicates that their tactics are proving any more effective against China's resistance. The slaughter of innocents in Canton has been shocking but it should not be allowed to obscure the true position.

FOR, although the changes in the Japanese Cabinet have been regarded in some quarters as a prelude to the reorganisation of Japan's forces in China, it would seem from the latest news from the Lunghai front that the Japanese troops will not need reorganisation so much as rearmament. Under the personal direction of Generalissimo Chiang Kai-shek, the Chinese forces along the Lunghai front have cleared the invaders from the Kaileng-Lanfeng sector of the railway and thrust them back to the Yellow River.

Over 3000 Japanese have already been slain in this battle and General Dohara and his depleted forces are faced with annihilation. It is estimated that the total Japanese strength operating in an extended area south of the Yellow River and north of the railway has now been reduced by at least 30 per cent.

And still Chinese reinforcements are being rushed up to take part in the sweeping operations against the tired Japanese units in this area. OTHER successful actions by the Chinese include frustrating attempts by 2000 Japanese reinforcements north of the Great Divide to cross at Kuantai and the recapture of Lowyang, Luwangchiao and Sanyichai.

But the true picture cannot be obtained by merely reviewing the developments in the war areas. These activities are not only proving of untold value in assisting China to resist Japanese aggression but they are also laying the foundation for industries which will completely alter the commercial geography of the country.

Apart from the immediate establishment, in a secret location, of an arsenal which is turning out rifles, light machine-guns, hand grenades and other light armaments and will soon produce heavy field guns and tanks, the National Government is concentrating on the development of the nation's industries in the interior provinces to meet war-time needs and increasing exports to ease the currency issue.

An exhaustive study is being made of natural resources as well as agricultural, industrial and transport conditions in the provinces of Szechuen, Kwelchow, Yunnan, Kwangsi, Hunan and Shensi.

TEXTILE factories, paper mills and sugar refineries have been set up in Szechuen and various railway systems are being extended into hitherto inaccessible districts in the interior.

In addition, new railways are being constructed to link Yunnan, Kwelchow and Kwangsi provinces and factories for manufacturing wireless, telephone and telegraph equipment are being built.

These might be considered as war-time measures but actually they are being carried out under the direction of the newly-formed Ministry of Economic Affairs according to plans which provide for China's economic reconstruction on a basis which will assure her future prosperity and welfare. It may sound optimistic to talk of China's future prosperity and welfare at this stage when helpless civilians are being slaughtered by Japanese airmen and China's sons are pouring out their blood in their country's cause.

But China realises that, although the war will be protracted, in the end right will triumph. It is for that day, when she will be free to shape her own destiny, that China is preparing.

Strong  
Radio Station  
Now Outside  
Chengtu

(From Our Own Correspondent)

Chengtu, May 24. The strong Government radio station at Chienju, near Shanghai, having to be removed before the recent enemy occupation of that area, has been set up outside Chengtu, capital of Szechuen; and it is now functioning as usual, including an international broadcasting service under the direction of the Central News Agency, which maintains a branch in Chungking, Chengtu, Kunming, and other important cities of the south-west.

Chinese in the south-west, like those in other parts of China not occupied by the enemy, are well informed daily of world affairs through the connections of the Central News Agency, a Chinese concern maintaining close relations with the Reuters, the Havas, the Transocean, the United Press, and other international news gathering and distributing organizations.

All Chungking, Chengtu, and other south-west daily newspapers carry reports from these worldwide news agencies, through exchange release of news.

CITIZENS INFORMED. All important towns in Szechuen, still not well supplied with dailies or other periodicals, have their own means to keep their citizens informed of national or world affairs. In Hsinan, a district north-east of Chengtu, for instance, an office of the district government notes all important news as being released by provincial broadcasting station. Periodically, through the network of telephones covering every town and village, someone at each local exchange has the duty of relaying the messages to the people.

The public of the district receives its daily news, other than those furnished by newspapers from the larger cities, in the form of wall-newspapers, or bulletins, posted at public places, mostly outside public parks, school grounds, and city gates.

According to an official estimate, some 40 per cent. of the public in every place have taken enough interest daily to read this bulletin. Keeping the public informed of current events inside and outside China is being considered one of the most important items of the programme in connection with mass education.

SALT INDUSTRY  
DIFFICULTIESSampan Folk Raise  
Cry Against  
Civic ImprovementSZECHUEN PROGRESS  
MAINTAINED

(From Our Own Correspondent)

Chengtu, May 24. Sudden change of economic organization often brings hardship to some one, and opposition may not be unexpected. The Chia Ta Salt Company of north China, now finding its operations in enemy occupied territory unprofitable, recently decided to set up a refinery in Tielutsing, a salt producing area in Szechuen.

Just as it was to move its machinery into its new field, the Company received a protest from 12 leading salt dealers of the district, stating that they do not wish to have outside competition to a trade which they have been enjoying for years.

Early May, the Chungking municipal authorities was to have put their five newly constructed steam-ferry-boats into service, thus lending safety, comfort, and efficiency to the travelling public; but the hundreds of sampan men and women who have been carrying for ages the residents of the two banks of Kialing and Yangtze across the Rivers are now raising a cry that this civic improvement would endanger their livelihood which, for the time being, is quite true.

## INCREASE OF RENT

Nearly 8,000 richa coolies in Chungking went on strike on May 17, 18, and 19, in opposition to the increase of rent from 30 to 40 cents as recently proposed by the richa owners for every 24-hour rental.

The owners, under present circumstances, are not at all unreasonable in view of present high cost of materials to maintain the vehicles in good condition; but at the same time, it is also quite true that the daily receipts of some poor pullers have not been sufficient to provide for a square meal after all charges, including license and union fees, are met.

## PROGRESS NOT IMPEDED

Necessary progress along all lines in Szechuen, however, is not to be impeded by tradition which is too long out of date. Among one of the proposals for the improvement of Chengtu, capital of Szechuen, now itself enjoying the status of a municipality, is to operate a bus service along its principal roads within the city limit, in addition to the long-distance cars from here to many important towns along the Szechuen-Yunnan, Szechuen-Kwelchow, and Szechuen-Shansi Public Highways.

SHOCKING  
U.S. CRIMEBODY OF PETER  
LEVINE FOUND

## MASS OF BONES

New Rochelle, Long Island,  
May 30.

The wire-bound body of Peter Levine, who was the 12-year-old son of a wealthy lawyer and was kidnapped three months ago, has been found by detectives on the shore at Davenport Neck, Long Island Sound.

Young Levine disappeared on his way home from school, and a note demanding ransom of \$40,000 was later found on the porch of his father's house.

Though the head, hands and feet of the body found yesterday were missing, identification is positive, according to Mr. Hoover, of the Federal Bureau of Investigation.

The body was hardly more than a mass of decomposed flesh and bones, but sufficient clothing remained to make identification possible through a patched jacket sleeve.

Detectives are of the opinion that the kidnapper, failing to contact Mr. Levine, Sr., became panicky, bound the boy with copper wire and threw him into the water.

An autopsy has been ordered to determine if death occurred before immersion. Mr. Levine, Sr. was away from home when the body was found.—(Reuter).

Japanese Remove Plant Of  
Chinese Cotton Mill

Hankow, May 30. The Japanese in Shanghai have removed the plant in the Sun Sin Cotton Mill No. 7, one of the largest Chinese-owned cotton mills at Yangtsepo, a report received here states.

Apart from the plant, a large quantity of cotton stored in the mill was also taken away by the Japanese.

Foreign interests in Shanghai are watching the Japanese movement with keen attention, as it is understood the plant has been mortgaged to the Hong Kong and Shanghai Banking Corporation against a loan.

The Sun Sin Cotton Mill No. 7, is the largest and best equipped of a chain of cotton and flour mills founded by the late Mr. T.K. Yung, reputedly China's Flour King, who passed away recently in Hong Kong.

The Chen Tai and Dah Fung dyeing factories in Jessfield in western Shanghai were recently taken over by the Japanese Toyota Cotton Mill. The Japanese are said to be repairing the machinery in the two factories, ready to resume operations in the near future.—(Central News).

LIVING  
CONDITIONS  
AT SEABETTER  
ACCOMMODATION  
FOR RATINGS

(BY AIR MAIL)

London, May 21.

The executive council of the Shipping Federation yesterday re-elected Mr. Basil Sanderson as chairman and Mr. E. H. Watts as vice-chairman.

Mr. Sanderson, in reviewing the work of the National Maritime Board, said that by co-operation between the shipowners' organizations and the officers' and seamen's organizations great improvements in working conditions on British ships had been brought about in the last two years, and these had made sea employment more attractive.

Ratings had had their wages increased, radical reductions had been made in hours, a new scale of deck manning had been agreed for foreign-going ships, and revised regulations for crews' accommodation on new ships had been adopted.

As regards officers all were now under a pension scheme, salaries had been considerably increased, there was a navigating manning scale, and the work of the Merchant Navy Officers' Training Board ensures that apprentices receive the proper training and education while at sea.

The Merchant Navy Officers' Pension Fund had only been established for five months, but already was a great success. There were 20,240 contributing officers, and the numbers were increasing daily.

The income was fully up to expectations, and the death benefit provisions had proved their value.

Among other matters discussed were methods of promoting cleanliness and comfort of crews' quarters, and the revision of the statutory victualling scale, which has been in force for over 30 years.

A joint committee of shipowners and the National Union of Seamen is considering what agreed revised scale can be submitted to the Board of Trade for statutory approval.

Zurich, May 30.

Following a protest from the Swiss Government, the German Government has given assurance that maps, printed in a number of German papers recently and including Switzerland in a map of Germany, have now been withdrawn from circulation.

Switzerland was included in the German map allegedly because of the German blood and character of Swiss people.—(Reuter).

NEW JAPANESE

NEW MILITARY  
AIRCRAFTArmy Co-operation At  
Over 200 M.P.H.

(BY AIR MAIL)

London, May 30.

Further evidence of the advance which is being made in the performance of British military aircraft may be found in the latest list of machines to which Air Ministry restrictions on publicity no longer apply, says the Times.

From this list it can be seen that Army co-operation work may be done at a speed of 200 miles an hour; that a single-engined bomber may make a speed of 283 miles an hour; that gunnery practice may be had on targets towed at something like the same speed; and that three different types of engine may be used in one of the latest twin-engined bombers.

The new Army co-operation aeroplane is the Westland Lysander, a high-wing monoplane with automatic slots and flaps on the wing to enable it to get into and out of small fields.

Its top speed at a height of 9,500ft. is 236 miles an hour; its stalling speed is not revealed, but it must be remarkably low and must give the machine an unusually wide speed range.

At a height of 2,000ft. its best cruising speed is 201 miles an hour. The range in still air at that speed is 564 miles.

The Lysander, equipped with the Bristol Mercury XII engine, has a service ceiling (the height at which the rate of climb falls to 100ft. a minute) of 29,000ft.

Its normal armament consists of two machine-guns firing forward and a third one in the rear cockpit, but it can also be loaded with bombs at need and the racks to carry these are fixed-like miniature wings outside the undercarriage fairing above each wheel.

From this it is to be concluded that gunnery exercises will take place against targets towed at speeds such as would be met in actual warfare.

The Hawker Demon with power-operated gun turret in the back cockpit is now shown to have a top speed of 180 miles an hour. The performance of this aeroplane, the first to be fitted with the new type of turret, is less important than the knowledge which is being gained through its use.

All the Regular two-seater fighter squadrons are now equipped with this class of Demon, and a body of experience is being built up which should be of great value when new types of fighter, using this type of turret, begin to come into service.

For the twin-engined Vickers Wellington bomber, built on the geodetic system of construction, the three types of engine now specified are the Bristol Pegasus, the Rolls-Royce Merlin, and the Bristol Hercules, the last being the big new sleeve-valve engine which develops 1,375 h.p.

# ANOTHER AIR RAID OVER CANTON CITY

## JAPANESE ATTEMPT TO BLOW UP WATERWORKS

### Government Buildings Were Principal Objective

(FROM OUR OWN CORRESPONDENT)

Canton, May 30. Canton had another bitter taste of aerial attack, when over twenty Japanese planes this morning showered bombs on North Wing Hon Road, the Piccadilly of Canton. The bombs were apparently intended for the Provincial Department of Finance at the northern terminus of this main thoroughfare.

Several houses were blown up, and about fifty persons were killed or wounded. The raiding planes attempted to blow up the water works at Sal Chuen but the missiles fell wide of the mark.

The daily air raids on the heart of the city are planned by the Japanese to create an anti-war atmosphere and make the people sue for peace. However, the mass raids give the opposite effect. The people are thoroughly aroused by the inhuman slaughter and are ready to contribute what they can to carry on the war.

Over ten bombs were dropped on Tai Tong Village, Honam, the ancestral home of General Li Fook-lam, who was persuaded by Japanese agents to start a coup d'etat in Canton on February 2. General Li received these agents but disclosed their plans to the Central Authorities. As a result the coup was nipped in the bud.

By bombing Canton for the past three days in succession and killing over a thousand people, the Japanese air force hopes to draw out the Chinese pursuit planes for a combat over the city. Japanese naval planes hope to destroy the Chinese air force, or at least, prevent them from bombing Japanese troop concentrations on the Lunghai Railway. So far no Chinese planes have been seen here.

It was rumoured that two Soviet squadrons were somewhere near Canton on Friday, hence 71 Japanese planes bombed the city on Saturday. No Soviet planes were anywhere near Canton, and the Japanese intelligence report was unfounded.

#### 200 KILLED, WOUNDED

Canton, May 30. According to a preliminary investigation, no less than 200 civilians were either killed or maimed and hundreds of houses wrecked during Japanese air raids over here today. So far about 40 mangled corpses have been extricated from among the debris.

Altogether 38 machines, in groups of 13, 9 and 16 each, took part in relays. They reached the city limits shortly after 10 o'clock and rained missiles in congested areas.

Chinese anti-aircraft batteries kept up a brisk barrage during the raids, but no hit was reported. (Central News).

#### WOMEN HURT

Canton May 30. A Reuter representative witnessed two Chinese women hit by falling shrapnel on the bund opposite the British bridge connecting Shamen with Canton. Crowds were jammed thickest in this area, hugging the environs of the foreign settlement.

The raid lasted half an hour, after which the visitors disappeared.

The alarm again sounded at noon but up to 2 p.m. no planes had appeared.

#### BRITON'S NARROW ESCAPE

Mr. J. T. Bell, a Briton, employed by the Yee Tsung Tobacco Company, and a Chinese clerk, narrowly escaped death when Japanese planes bombed Talsiao Station the Canton terminus of the Kowloon-Canton railway during the second raid on Canton today.

Mr. Bell was visiting the station on business and was taken completely by surprise.

He stated afterwards: "Plane after plane power-dived on the station dropping bombs which exploded with tremendous reverberations. We rushed for the nearest cover and hoped for the best."

"Fortunately the missiles fell wide of our hiding place. It was the most uncomfortable time I have ever spent. The whole earth shook and the noise was deafening. We were the only two people in the station compound as the staff had already taken refuge in dugouts." (Reuter).

#### MANY HOMELESS

Canton, May 30. In view of the widespread havoc created by the merciless bombing of Japanese planes on Saturday and Sunday, many persons are homeless as their houses were destroyed. Mayor Tsang Yang-fu has

designated the Changshan Hotel, the eleven Mass Education Institutes, Kwangtung Refugees Institute and other places to accommodate the destitute people.

All refugees who are identified by the police as residents of the bombed areas are given free quarters and relief.

The Consular Body has offered condolences to the victims through the city government and provincial government. A detailed report was submitted to their home governments based on personal observations of consular investigators. (International).

#### RELIEF PLAN

Canton, May 30. General Wu Te-chen, Chairman of the Kwangtung Provincial Government, is making a plan for the relief of the numerous victims of the ruthless Japanese bombings over Canton. (Central News).

#### TO ISSUE BULLETIN

Canton, May 30. The Canton Committee for Justice to China, a foreign organization here, is taking pictures and collecting materials on the ruthless Japanese bombings over Canton on Saturday and Sunday for the publication of a special bulletin to expose Japan's atrocities to the world. (Central News).

#### SHAMEN GATES OPENED

Canton, May 30. There were no further air raids here this afternoon.

The gates of Shamen have been opened. No disorders have occurred, and everything is normal.

It is learned that there were over 100 deaths as a result of today's raid, while at least 200 have been injured.

#### MANY BODIES BURIED

The result of today's raid appears to be a failure, as not one single military objective was touched by the 120 or so bombs dropped.

Three bombs fell on and destroyed a village about six miles from Canton. Apart from the railway line, which was over half a mile distant, the village was isolated by green fields.

Although reliable estimates now place the death toll of the past three days' bombing at over 1000, there must be many more bodies buried beneath the debris which may not be unearthed for many days to come. (Reuter).

#### GOVERNMENT RELIEF

Canton, May 30. To relieve the sufferings of the large number of victims of Canton Japanese air raids during the week-end, the Executive Yuan has ordered \$10,000 to be remitted to the Kwangtung Provincial Government for distribution. (Central News).

#### SCOUTS, GUIDES AMONG DEAD

Canton, May 30. The Chinese estimate that the death-roll has now reached 1,000 killed and 1,500 injured during the week-end, including a number of Boy Scouts and Girl Guides who were killed while attending wounded from previous raids.

Street cleaning brigades are working feverishly and rescue work each hour reveals additional horribly mangled and mutilated victims, some of whom had been buried since Saturday and were already decomposing owing to the hot weather.

One old Chinese woman was miraculously discovered alive, having been protected by a heavy block of masonry when the house collapsed over her on Saturday. She suffered no ill effect beyond exhaustion and shock.

Hundreds of homeless victims are surrounding the rescue workers trying to retrieve what is possible from their pathetic belongings. Meanwhile, in addition to the exodus to Hong Kong, thousands are leaving for villages in the interior. (Reuter).

## Japan's Offer To Germany

Shanghai, May 30. Japan proposes to reinforce the Tokyo-Berlin axis by offering the return of Tientsin to Germany in return for the recall of German advisers in China and suspension of German arms shipments to China, according to reports current here.

## Triple Tragedy In Shanghai

### BODYGUARD KILLS EMPLOYER AND COMPANION

Hankow, May 30.

Indignant at his employer for having joined the ranks of the traitors, Wang Hsiang-ping, 50-year old bodyguard, shot and killed a fellow bodyguard, rushed to his employer's room and murdered him, and then turned the pistol on himself in a sensational triple tragedy in Shanghai yesterday afternoon.

The chief victim was one, Yu Hsi-chieh, a noted chartered accountant practising in Shanghai, who was formerly chief of the Accounts Department of the Ministry of Finance.

Yu, 47 years old and a native of Kiangsi, was said to have recently accepted a post with the puppet regime in Nanking as director of salt revenue.

## Ghastly And Pathetic Canton Scenes

(Continued from Page 1)

Newsreel cameramen filmed the pathetic spectacle, but had to hurry away.

#### A WARRIOR'S LOSS

Fifty yards further, another bomb had reduced a group of similar dwellings to ruins. At each point where the bombs had dropped, there were scattered about the ruins of the huge craters many straw mats and torn, blood-soaked clothing, which only hinted of the horrible contents that they concealed.

A Chinese soldier with tears in his eyes lifted one of these mats and showed the newspapermen a bloody body beneath it.

"It is the body of my brother," he said with great emotion.

Sheets of corrugated iron were also used to hide from the scorching sun the remains of human beings. The stench of slowly decomposing flesh was sickening.

Climbing over shattered wood, straw and masonry, the correspondents had to be careful lest they trod on a limb, many of which could be seen protruding from underneath the ruins.

#### HAD TO BE SEEN

Moving along the streets, the correspondents came across the remains of another group of houses outside which two men were engaged in lifting two halves of a woman from the busy roadway.

Across the street life was going on as usual. Some people cooking their evening meal while children played near the doorsteps.

The correspondents witnessed between 60 and 70 horribly shattered bodies at the different points where bombs had fallen. The picture of misery and destruction had to be seen to be believed.

#### CIVIL ESTABLISHMENTS

It is difficult to imagine what possible objective the Japanese raiders could have had in mind when dropping the bombs where they did today.

The city government offices were a mile distant and the railway line half a mile away. There were no factories or anti-aircraft posts within the area.

Concentrated in the area were several schools, hospitals, hotels of the poorer class and slums. (Reuter).

#### OFFICIAL ESTIMATE

Canton, May 30. Seventy-one Japanese planes took part in the three raids on Canton on Saturday, it was learned from official sources today. No military objectives were hit but over 200 houses were demolished. (Our Own Correspondent).

## PROGRESS MADE IN EGYPTIAN AIR DEFENCE

### New Heavy Bomber From England

Cairo, May 30.

Plans for strengthening of the Egyptian air force are making remarkably rapid progress under the new Egyptian Cabinet. Eighteen new heavy bombing planes have already arrived from England and a large number of other machines are expected within the next few months, when the effective strength of the Egyptian air force will have been brought up to over 100 planes.

The Government has decided to establish an air force training school where pilots and observers will be trained on British lines.

Simultaneously, a decree has been issued forbidding aeroplanes to fly over Mersa Matruh, where the aerodrome is to be strongly fortified against aerial attacks and where within the last two weeks two anti-aircraft batteries of most modern type have been mounted. (Transocean).

## JAPANESE PRESSURE ON TUNGKWAN IS EASED

### Yungtsi And Chaochu Retaken By Chinese

Hankow, May 30.

The Japanese pressure on Tungkwán, a town on the south bank of the Yellow River, has been considerably eased, according to Chinese reports from the front.

Improvement in the situation there is said to have followed the Chinese occupation yesterday of Fenglingtao, from where Japanese artillery on the north bank of the Yellow River had been shelling the Chinese positions in Tungkwán and inconveniencing traffic on the Lunghai Railway.

Chinese reports also claim the occupation of Yungtsi, the southern terminus of the Tientsin-Puchow Railway, is southwest Shansi, and Yumenkou, north of a point where the Fen River flows into the Yellow River. (Reuter).

#### ORDER RETURNS

Tungkwán, May 30. Following its recapture by Chinese yesterday, peace and order have been restored in Yungtsi.

At the head of a strong detachment of guerrilla forces, Mr. Wang Tse-ping, magistrate of Yungtsi, returned to his district headquarters yesterday evening. A large number of inhabitants, driven away from their homes with the Japanese occupation of the city, have also returned.

The retreating Japanese forces, hotly pursued by the Chinese, have now withdrawn to Chiehshen and Yungtsi, in south Shansi.

During their flight from Yungtsi, the Japanese were waylaid in the vicinity of Yuhshian by a regiment of Chinese troops and lost large quantities of military supplies and ammunition. More than 200 Japanese were killed and wounded in the engagement which followed. (Central News).

#### CHAOCHU RETAKEN

Tungkwán, May 30. Chinese troops advancing on Linfen on the Tientsin-Puchow Railway have captured Chaochu, 20 miles south of Linfen, which is being attacked on all sides.

In taking Chaochu, the Chinese forces inflicted over 300 casualties and captured three tanks and 80 rifles. The fleeing Japanese are now in Linfen, where they are making a stand.

The Chinese recapture of Puchow, the terminus of the railway, has been confirmed.

The railway from Taiyuan to Linfen has been cut and repaired several times, and since May 27 railway communication has been suspended. The strength of the guerrilla forces has been increased by many who have lost their homes and families. (International).

#### KWEITEN FALLS

Hankow, May 30. Chinese military authorities confirmed today that Kweiten, in East Honan, had fallen to the Japanese. Recounting events leading to the capture of the town, a spokesman said that fighting had broken out in the outskirts of Kweiten on the morning of May 27.

While fighting was going on, a Japanese flying column had reached Lingling, west of Kweiten, thus cutting off the retreat of Chinese troops defending the town. Heavy Japanese artillery bom-

## SPANISH NATIONALISTS ADVANCE NEAR TERUEL IN JOINT OFFENSIVE

Bilbao, May 30.

Nationalist Spanish troops in the Teruel sector under General Valera, and in the coastal sector from Tarragona to the sea under General Aranda, continued to advance in a joint offensive, according to Nationalist Spanish reports yesterday.

Southwest of Teruel, Nationalist troops occupied several hills south of the road to Sagunto in order to cover the advance of motorised columns along this road. The troops under General Garzia Escamez, have approached Puebla de Valverde.

Another column of the Castilian army captured the village of Cabra de Mora and pushed forward to Mora de Duero. In Vila Franca del Clid Nationalist troops captured the strongly defended key position of Ares, which is considered to be a stepping stone to the town of Albocacer.

Republican troops are defending their position with stubborn resistance, but are up against superior forces. (Transocean).

#### COUNTER-ATTACKED

Barcelona, May 30. The Republican Spanish War Ministry stated last night that on

the Levant front heavy fighting is reported in all sectors. The insurgents, supported by artillery and aeroplanes, continued the attacks and succeeded in consolidating their positions after suffering heavy casualties.

The Republican troops thereupon launched a violent counter-attack, capturing certain villages and hills and also taking hundreds of prisoners and considerable quantities of war material.

In Andalusia, Republican Spanish troops made a sudden attack on the Nationalist positions at Los Civiles, taking 25 prisoners and war material. (Transocean).

## PROPOSALS TO SUDETENS

#### LONDON SATISFACTION

London, May 30. The orderly manner in which the polling took place in Czechoslovakia on the second electoral Sunday has caused obvious satisfaction in London. (Transocean).

#### ORDERLY ELECTIONS

Paris, May 30. All Paris newspapers this morning publish lengthy articles on the elections in Czechoslovakia. Great prominence is given to the fact that everything went off in "an orderly manner." The results were altogether in line with general expectations. (Transocean).

#### MORALE EXCELLENT

Paris, May 30. The Czechoslovakian Minister in Paris, M. Osusky, was decidedly optimistic regarding the Czech situation during his conference with the French Foreign Minister, M. Bonnet, yesterday evening, according to political circles here. On leaving the Ministry, M. Osusky granted an interview to

journalists declaring that greater calm had prevailed during the second Sunday of the municipal elections and that the morale of the country was excellent.

"Czechoslovakia will remain as a nation and will continue to contribute towards the maintenance of peace," said M. Osusky. (Transocean).

## GENERAL STRIKE IN DAMASCUS

### Trade Unions Want Social Legislation

Damascus, May 30.

A general strike was proclaimed here this morning by the trade unions. All services are affected and only the public offices are open.

The trade unions demand social legislation, which up to now has not been granted by the French Mandatory authorities. (Transocean).

## SPORTING NEWS AND NOTES

LAWN BOWLS  
TOURNEYClose Game On  
C.S.C.C. Green

After having been interfered with by rain for a week the Colony lawn bowls championships were at last given a "kick off" yesterday when a full programme of matches in the open pairs section was carried out.

On the Civil Service Cricket Club green A. Bakar and A. K. Minu (Indian Recreation Club) beat L. de Rome and G. T. Padgett (Electric Recreation Club) by the overwhelming margin of 23-10. Minu played very good bowls and was ably supported by Bakar but the Electric R.C. pair were off colour and could not do much on the green which was on the fast side but which did not "take" very much.

## CLOSE STRUGGLE

The game between A. J. Coelho and J. Pau of the Craigenower Cricket Club and D. M. Khan and M. R. Abbas (Indian Recreation Club) developed into a very close fight after the Craigenower pair had run off to a 14-6 lead. The score at the beginning of the 21st head was 19-11 but the Craigenower pair managed to score the necessary shot to enter the second round despite a very nice brace sent down by Abbas.

Results of the other matches were:—

A. Castro and V. Atienza beat J. R. Soares and J. W. Leonard 24-10, at H.K.F.C.

G. Duncan and W. Gill beat J. H. E. Edwards and G. Perkins 20-19, at C.S.C.C.

CHINA'S FIRST  
MAJOR TITLEFORCE BLENDED  
WITH FINESSE

China made lawn tennis history for the first time at Bournemouth when Kho Sin Kie, a 24-year-old Chinese, hailing from Java, beat H. W. Austin, the holder of the British Hard Courts title.

It was a Japanese, Miki, who subdued Austin unexpectedly in the same championship years ago. Kho won the first set to three and the second to four. He was in fine and delicate touch, defending with an athlete's mobility and waiting for the right ball to come along to go for the winning stroke.

Sometimes the finishing blow took the form of a fierce forehand "top-splinner" across Austin's bows as he sailed into the net; or, if this shot came back, he would hold a beautiful lob. Austin in retreat would often find a ball, waited off its normal track by wind and spin, curling back on to his legs.

## UNCANNY DROP-SHOTS

It was Kho's wonderful command of length and strength, force delicately blended with finesse, that worried Austin most; and, if the slyer drop-shots—and Lizzana never made better—looked the more spectacular coup, and perhaps had more disintegrating effect, they were only part of a preconcerted plan.

Only in the third set, which he won to three, did Austin look like the holder of the title. Kho has always been a player of moods—it is a joke among his friends that he can never score a match-ball, and he did actually require 11 before he could win the Alexandria championship recently—and in this bout he seemed to become wind-conscious for the first time.

Austin got an early lead of 3-1, and, serving with more vigour than in the first two sets and improving his driving length and his volleying, forced Kho to concede nearly all the longer rallies.

In the fourth set Austin was still fighting bravely, but Kho came back at him with renewed zeal. The Chinese had a stroke for 4-1 and won the sixth game to love, to make it 4-2, with wizard-like drops. Then speculation was over. Austin missed an easy volley in the seventh game, won the eighth in his last reprisal, and lost the ninth in a dust-storm. Kho had vainly tried a drop at the first match-ball and driven out at the second. At the third Austin ob-

## DAVIS CUP

## Belgium Leads

Brussels, May 30.  
After losing the first singles here in the Davis Cup tie with India on Saturday, Belgium levelled the score by winning the second singles yesterday. Lacroix beating Sahwey 6-4, 6-3, 4-6, 6-3. In the doubles match, the Indian players, Sahwey and Ghaus, were defeated by Lacroix and Bormann in five sets. Belgium now leads 2-1.—(Transocean).

## FRANCE WINS

Paris, May 30.  
The French Davis Cup team eliminated Italy. The French doubles combination, Boilel and Felliza, defeated their Italian opponents in three straight sets by 9-7, 6-3, 6-4.—(Transocean).

## GERMANY THROUGH

Budapest, May 30.  
Germany beat Hungary by three matches to two in the Davis Cup tie played here, by winning the first of the two remaining singles yesterday. Von Metaxa beat Dallos 6-2, 3-6, 6-3, 6-2. The second singles match was interrupted by rain when Henkel was leading by four games to one in the first set of his match with Gabory.

Since the Germans wished to return to Berlin already yesterday afternoon, the German captain decided not to finish the match but to forfeit the point to Hungary.—(Transocean).

## SWEDEN'S SUCCESS

Zagreb, May 30.  
Sweden won the first singles match in the Davis Cup tie against Yugoslavia here yesterday. Karl Schroeder (Sweden) beating Paljaca (Yugoslavia) by 7-5, 1-6, 6-2, 6-3, 6-3. The second singles could not be played owing to falling light. The game will be decided today.—(Transocean).

Uginsky scored a double fault. China, for the first time had won a major title.

A.H. McBride (12) and W. Woodward (13) v. F.E. Booker (12) and N.J. Booker (13);

C.W. Jeffries (20) and B.D. Evans (11) v. H.H. Mundy (10) and A.E. Clarke (11);

A. Brooksbank (18) and A.E. Gerondal (21) v. F. Buckle (14) and F.G. Van Reede (21);

F.J. de Rome (8) and G.S. Archbutt (9) v. J.B. Mackie (5) and A.M. Mack (15);

W.F. Barnes (2) and E. Buck (16) v. G.W. Reeve (15) and W.J. Dyer (17);

G.T. May (15) and A.I. Burnie (21) v. W. Stoker (18) and J.R. Way (16);

A. Sommerfeldt (8) and C.H. Burton (10) v. G.M. Park (7) and R. Young (6);

City went on fighting to the end, and Queen's Park Rangers more than once during the season were on top of the table and looked like staying there. Tranmere Rovers will play second division football next year for the first time in their history, and they have thoroughly deserved the honour.

The International Championship was won by England although they were beaten in the most important match of all, that against Scotland at Wembley. The team had played really good football against Ireland and Wales, but it could not, as it were, find its length on that day when London seemed half populated by the Scots. It has been a tense, interesting season which did a lot to confirm the impression that, with two or three exceptions, professional clubs were of a muchness.

F. Groves (5) and J. Stenersen (18) v. C. Mycock (13) and H.H. Zoddow (16);

D.L. Prophet (12) and J. Harrop (14) v. A.D. Humphreys (8) and D. Humphreys (2);

A.C.I. Bowker (10) and J.R. Collins (15) v. H.H. Pettick (12) and J.W. Mayhew (11);

L. Goldman (7) and C.W.E. Bishop (11) v. J. Shepherd (19) and J.W. Macdonald (7);

S.J.H. Fox (2) and R.G. Gray (11) v. D.J. Gilmore (5) and L.C.F. Bellamy (19);

J.E. Dovey (14) and J.A.R. Selby (11) v. Surg. Lt. Cdr. Nicholson (8) and Lt. Harvey (11);

Second round to be played on or before July 10, third round on or before July 24, semi-final on or before August 7, final on or before August 21.

**SANATOGEN**

Nervousness, fatigue, forgetfulness and many other symptoms often hamper the full enjoyment of life. You can become fit and healthy again with a course of Sanatogen.

Sanatogen contains just those elements which give new health and energy to the run-down organism in a very digestible form. It strengthens the nerves, renews the red blood cells, and thus gives new strength and stamina to the whole system.

Prof. Tobold, a well-known  
European authority, wrote:

"Those who are suffering from nervous weakness will soon regain their former strength and joy of life."

Try Sanatogen at once. Buy it to-day and see how quickly Health and Vitality return.

**BETTER VALUE THAN EVER**

The Gillette No. 77 Set illustrated here, which contains the latest Gillette razor, three Blue Gillette slotted blades and two blade holders in a new type of moulded box, has these definite advantages:  
The razor is made in two pieces instead of three, as formerly, thus making it easier and quicker to clean, assemble and use.  
The blades are made by the new electrical-tempering process. They give not only closer, cleaner shaves than you have ever had before, but also more shaves per blade.  
The case is ideal for hot and humid climates as it is so easy to keep clean.  
Ask your dealer to show you a No. 77 Set—one of the most popular that Gillette have ever made.

## This Is Going To Be A Women's Year In Tennis

Big lawn tennis began with the opening of the British hard court championships at Bournemouth.  
The Wightman Cup match against the United States is to be played at Wimbledon on June 10 and 11, and the Wimbledon championships themselves begin on June 20, writes a Home correspondent.

Now what sort of chance does Great Britain stand this year? Who are the players from abroad we need fear most?

Let me begin with the men. Donald Budge, the red-haired Californian player, is coming in defence of his three Wimbledon titles. He is a host in himself. Then there's a man we haven't seen in England before—Robert Larimore Riggs, 20-years-old Californian, ranked No. 2 in the United States. He and Gene Mako are, I understand, coming with Budge.

We shall miss G. von Cramm, and it is a pity, too, that Davis Cup engagements will prevent the Australian men from being at Wimbledon.

But what about France? Immediately after the retirement of the "Four Musketeers"—Brunner, Borotra, Lacoste, and Cochet—who made her the greatest lawn tennis nation in the world from 1927 to 1933, France set about looking for likely young players. Her reward is to be seen in Y. Petra and B. Destremau, two men whom even Budge has to treat with respect.

We are relying on Austin, our chief stalwart, for the championships. As he has retired from the Davis Cup team he can give his whole time to prepare and train for the terrible fortnight's strain of Wimbledon.

It appears, then, that this is rightly being called "women's year" in tennis.

### BIG NAMES

Let's look at some of the big names. Mrs. Helen Wills Moody, still ambitious at 32, intends to try to beat all records by winning the Wimbledon title for the eighth time. Can she do it? Well, the opposition this year is much stronger than in 1935, when she last won a Wimbledon.

Miss Dorothy Bundy, from California, daughter of Mrs. T. C. Bundy (Miss May Sutton), who astonished all the English women players by winning in 1905 and again in 1907, and for the first time took the title from these shores, may possibly follow in her mother's footsteps.

And beware of those quiet Australians! Miss Nancy Wynne, tall (5ft. 10in.), has a wrist of steel, a piercing quick eye, a forehand drive like the kick of a horse, and a service faster than Alice Marble's—a brilliant player.

Mrs. Miller (better known as Miss "Bobbie" Heine) is at the head of the South African women's team.

Then there are Senorita Lizana, holder of the United States championships; Miss Alice Marble, Mme. Mathieu, Mrs. Fabry, Miss Jacobs, and hosts of other world-famous players. They will all be at Wimbledon.

What chance, then, have the British girls, Miss Stammers, Miss M. Scriven, Miss M. Hardwick, Miss Jean Saunders—to take just a few?

We are without our champion, Mrs. Little (Miss Dorothy Round), so we shall be somewhat weakened.

But I have frequently noticed, especially in Wightman Cup matches, that when our team of players seems stronger on paper than the opposition we lose. So perhaps this year the converse will be the case.

At any rate, whether we win or not, we shall see, at Wimbledon some of the best players the world has ever produced.

## Aborigines Ready For War Service

SIKANG TO BE FULL PROVINCE

(From Our Own Correspondent)

Chengtu, May 24.

A battalion of Lolos, aborigines of the frontier provinces of China, is now in Chengtu, Szechuen, on its way to Chungking, the wartime capital of the Republic, to be inspected by the recruiting officers of the Military Commission before being dispatched to the front for active service. Since the war, many Lolos, Miaoos, and Tibetans of Yunnan, Kweichow, Sikang, and Szechuen, have joined the Chinese Army as individuals without tribal distinction, all as citizens of China; and the present unit from Sikang is one of the first expression of united front from this western territory.

In this connection, it may be of interest to add that the National Government is soon to proclaim Sikang a full province like the status of Szechuen, Tsinshai, and Yunnan, to which it is bordered. It is being proposed that some eight districts of Szechuen adjacent to Sikang be incorporated with the latter so as to give the new province more revenue producing area.

At present, only 19 districts in Sikang are under civil rule, the rest being under Tibetan rule, which has a legal peculiarity of its own. Lately, a judicial system was put into force in Sikang.

### PROVINCES CLOSER

Since the war, provinces of China have been brought closer to one another. Szechuen is being prepared to supply the 500,000 piculs of rice to Hupeh as requested, in addition to the 30,000 tons of coal shipped recently through the office of the Ministry of Economics.

The districts in Szechuen during 1938 shall have to keep a larger reserve of grain at the several granaries as ordinarily required by law. The provincial government at Chengtu have just issued orders that all temples and guild halls not now being occupied for schools or barracks shall be used as storage for foodstuff to be called at any time by military order. In the meantime, cemetery sites have also been utilized in many parts of west China for the purpose of more production in this time of national crisis.

## REST FOR CHINESE AIR ACES

Six of the eight Chinese airmen who participated in the recent fight to Kishu, Japan, have been ordered to take a rest in Szechuen Province.

The six pilots, it is reported, have arrived in Chengtu, where they were feted at a dinner reception by the Pacification Commissioner for Szechuen and Sikang, General Teng Hai-hou.

## FOOTBALL IN MACAO

H.M.S. SEAMEW DEFEATS THE VETERANS

(From Our Own Correspondent)

Macao, May 29.  
The Macao Veterans entertained a team of sailors from the visiting H.M.S. Seamew to a soccer game at the Candrome stadium this afternoon. Despite their sea-legs, the Seamew eleven scored an easy victory over the Veterans, defeating the local side to the tune of four goals to two.

### AT HOME

Local British residents were entertained at an At Home on board the H.M.S. Seamew this morning. Among those who attended as guests of Lt.-Comm. D. L. C. Craig, commander of the British gunboat, was Capt. C. Barbosa, of the Portuguese sloop R.P.N. Goncalo Velho.

### DRANK LYSOL

A young Chinese woman refugee from Peiping was found unconscious at her residence at No. 15, Hankow Road, Kowloon, on Sunday afternoon.

It appears that the woman, Tong Key-kan, 25, drank the contents of two bottles of Lysol. Although a doctor who lives in the vicinity was quickly summoned, the unfortunate woman died at Kowloon Hospital after admission.

### CROWN LAND SALES

Two rural building lots, at Repulse Bay, No. 408 and No. 409, were sold for \$12,500 and \$9,500 respectively at the Crown Land Sales yesterday, the purchaser in both cases being Mr. Chun Tak-kwong, of No. 8 On Hing Terrace, second floor.

The upset price for the first lot was \$8,000 but keen bidding between the eventual purchaser and another bidder soon raised it to the purchase figure.

Bidding for the other lot, upset price of which was \$3,000, was also confined to these two parties.

## LAST VOYAGE OF THE KAISAR-I-HIND

## "The Luckiest Ship"

With a paying-off pennant, the first to be flown by a merchant vessel, at her masthead, the P. and O. liner Kaiser-I-Hind made her last arrival at Plymouth recently. This 11,518-ton liner is shortly to be broken up.

Her paying-off pennant was 24 yards long—a yard for every year of her service. It is to be presented to her Master, Capt. L. Edwards. The "Kaiser-I-Hind" has been called "The Luckiest Ship in the World."

On her maiden voyage to Bombay in 1914 she broke records and on her voyage to New York she encountered 1,500,000 miles, and has passed through the Suez Canal 152 times—another record.

Charles Osborne, the baggage master, who has held that post ever since the maiden voyage 24 years ago, said: "This must be the luckiest ship in the world. She was attacked by submarines during the war, not once, but many times, but always the torpedoes missed us. On one occasion we had Viscount Chelmsford the Viceroy of India, on board."

"We have been in gales, monsoons, typhoons and hurricanes; we have been bombed, torpedoed and shelled, but no one on board has ever been hurt."

FRENCH PROTEST  
BOMBING OF  
PYRENEAN TOWN

Paris, May 30.  
It is announced that the French Government has instructed its Consul-General at San Sebastian to lodge a protest with the Spanish Nationalist authorities at Burgos against the air raid on the French town of Cerbere, near the Pyrenean frontier, which took place on Friday night—(Transocean).

JAPANESE  
KWANGTUNG  
INVASION  
BROADCAST

(From Our Own Correspondent)

Canton, May 30.  
A Japanese broadcast from Shanghai predicts the imminent military invasion of Kwangtung, but in well-informed circles here this is regarded as a scheme to draw the Kwangtung troops back from the Lunghai front, where the situation is developing unfavourably for the crack Japanese detachments under Lieut.-General Kenji Dohara, the "Lawrence of Manchuria" and one of the authors of the Mukden Incident of September 18, 1931.

Generals Li Hon-wan, Yeh Shao, Teng Lung-kwang and Pang Lin-sheng of the Kwangtung divisions are now fighting the Japanese on the Lunghai Railway front. Whether they will be sent back here or not is not yet known.

FRENCH AIR  
MISSION

London, May 30.  
The French Air Mission which arrived in England yesterday on a visit of R.A.F. establishments today paid a courtesy call on the Air Minister, Sir Kingsley Wood, and later visited Northwood aerodrome where the latest Hurricane fighters were inspected.

LONDON MARKET  
CALMER

Reflects Lessening  
Of European  
Tension

London, May 30.  
Further lessening of European political tension is reflected in this morning's foreign exchange market, where much calmer conditions were evidenced.

While turnover was not large the majority of European currencies had a more settled undertone. The market's chief feature was the tendency to unload U.S. dollars, which were so much in demand during the recent tense situation.

In addition to the improved European political outlook the Belgians benefited from the reduction of the National Bank rate from four to three per cent.

Well-informed quarters are of the opinion that the lower bank rate in conjunction with the overwhelming vote of the Chamber in favour of the bill instituting the National Crisis Tax, should cement the revival of confidence in Belgian finances.—(Reuter).

QUOTAS ON RUBBER AND  
TIN BEING DEBATED

London, May 30.  
The result of this week's meeting of the International Rubber and Tin Committees is the subject of animated discussion here.

The Rubber Committee tomorrow will have the difficult task of deciding a level quota that is equitable to all sections of the industry.

While the latest estimates of world consumption suggest that the quota for the whole year must not exceed 55 percent if the present excessive stocks are to be reduced, the Committee has to bear in mind that any drastic reduction of the quota will aggravate an already disturbing labour position in the producing areas.

To achieve a 55 percent level for the whole year, the Committee must fix the quota at 55 percent for the second half of the year.

## AMERICAN OUTLOOK

Whether this level is sufficiently low to keep supply and demand reasonably co-ordinated depends almost entirely on the future trend of American industrial activity, the present outlook of which is none too bright.

FIELD POSTMEN CATER  
TO SOLDIERS' MAIL

Hankow, May 30.  
Braving great danger, some 500 specially-trained Chinese postmen are maintaining a mail service between the front and the rear. Often dodging shells and bombs, they bring letters to China's soldiers at the front and the latter's messages back to their families and friends.

These postmen belong to the Field Posts Service. Split into a number of units they are attached to the various Chinese armies. While working in close co-operation with the regular post offices, they handle army mails only. They are smartly dressed in uniforms and wear red badges on their collars.

As far as possible, mail service within the Chinese lines has been efficiently maintained. At collecting stations the postmen quickly sort the letters and then set out on their respective routes. As it is impossible for them to make personal deliveries in the trenches, they deposit them with the field headquarters for redistribution.

On their way back from the field headquarters, they bring loads of letters written by the fighting men to their families and friends.—(Central News).
